SUMMARY

I specialize in building modern, responsive web applications using React.js and Next.js. With over three years of experience, I've contributed to a wide range of projects from dynamic landing pages to complex web platforms. While my core strength lies in frontend development, I'm currently expanding my skillset as a Fullstack Developer, gaining valuable experience in backend technologies and API integration.

AREA OF EXPERTISE

Frontend Development HTML, CSS (SCSS), JS/TS React & Next.js	Responsive Design Cross-browser Compatibility SEO & Accessibility	Component-Based Architecture RESTful API Integration Version Control (Git)
--	---	--
